### Letter of Recommendation

I am very happy to recommend **MR. Siva Kumar**. I have seen him as an ambitious undergraduate student in computer science at Koneru Lakshmaiah Education Foundation (deemed to be University) and I had an opportunity to observe him in "**Placement Training**".

I would like to tell you some facts about him that impressed me the most. Mr. Shiva Kumar is very ambitious and career oriented. He works hard to achieve his goals and is committed to his work. He is emotionally mature, confident and good-natured. He is very interactive in the class and endorses the discussions with cogency and natural ease. This combined with his pragmatic approach has always kept ahead of his peers.

Blessed with eminent analytical abilities and an acute sense of reasoning he can analyze enigmatic problems exceptionally well and come out with good formulations. He is a student with self-reliance and good levels of self-confidence. MR. Siva Kumar's deep understanding of the subject, as well as his quest for knowledge constantly impressed me.

He has a flair for keeping himself abreast with the latest developments in technology. Keeping in view all the above stated facts with his self-confidence and intellectual ability, he will excel graduate studies and I recommend him to be awarded an assistantship to enable him pursue his further studies.

*M. Kavitha*
